

### 2023/24 Year End Reflection

Engagement in the Hospital Wide Flow Programme has been outstanding over the past year.

We would like to thank everyone involved for their contribution, ideas and enthusiasm in delivering improvement outcomes,

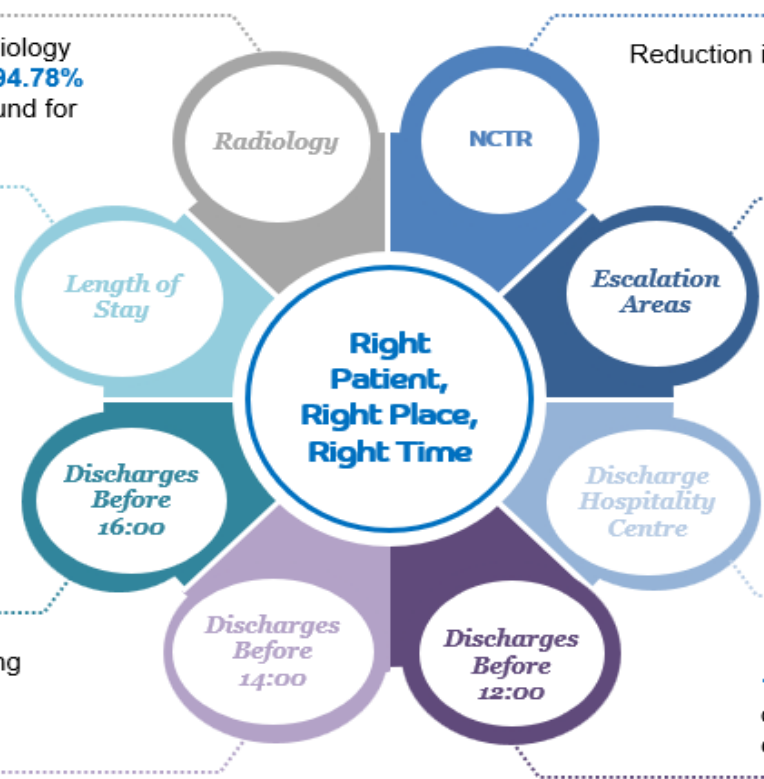

### Summary Of Achievements:

Providing and sustaining an average **82.1%** radiology order to exam within 24 hours and an average **94.78%** radiology exam to report within 4 hours turnaround for inpatients.

**27.30% decrease** in the number of patients with a LOS 14+ days and **30.92% decrease** in the number of patients with a LOS 21+ days, at the end of March 2024 compared to end of March 2023.

**11.56% increase** in the number of patients being discharged before 16:00 across Q4 2023/24 in comparison to the same period in 2022/23.

**13.45% increase** in the number of patients being discharged before 14:00 across Q4 2023/24 in comparison to the same period in 2022/23.

Reduction in the number of no criteria to reside patients by **130**.

Successful and sustained **closure of escalation areas including M3**.

**76.8% increase** in DHC utilisation for the month of March 2024 in comparison to the same period in 2023.

**13.77% increase** in the number of patients being discharged before 12:00 across Q4 2023/24 in comparison to the same period in 2022/23.

### Reduction in Long Length of Stay and No Criteria to Reside Patients

- WUTH established the Transfer of Care Hub in shadow form with the Discharge Director
- Executive Discharge Cell commenced
- Focus on improved pathways, processes and escalations
- Visibility of data and where delays were occurring

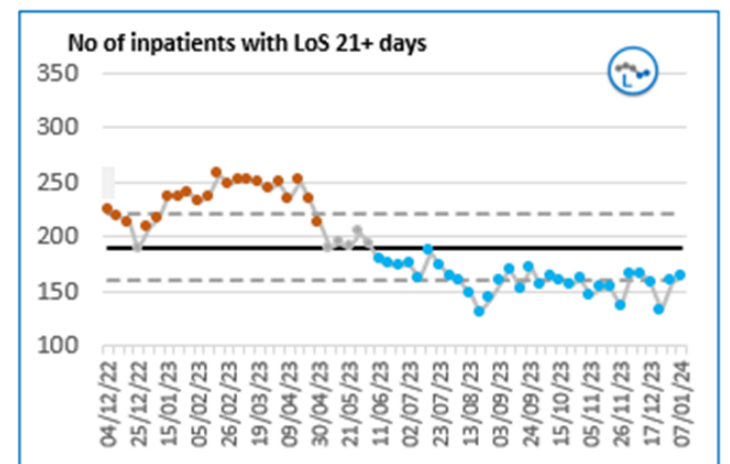

**100 no-criteria to reside patients achieved from 260 at its highest point**

- Formal establishment of the Transfer of Care Hub at WUTH
- Social workers transfer back to Local Authority and come under a single WUTH leadership structure in collaboration with the Local Authority
- New reporting arrangements introduced
- Reduced transactional hand offs between organisations

#### Reduction in Long Length of Stay patients

The charts illustrates the sustained reduction over the past 12

### How Have we Achieved This?

This achievement is the result of robust internal process and collaborative working with system partners

## 2023/24 Year End Reflection

### Summary Of Achievements:

#### Hospital Wide Flow: Timeline of Improvement and KPI Comparison 2022/2023/2024

##### Timing of Discharges

Timeline Overview of Improvement, 2023/24

% Discharged Before 12:00 (from base wards including transfers to DHC)

% Discharged Before 14:00 (from base wards including transfers to DHC)

% Discharged Before 16:00 (from base wards including transfers to DHC)

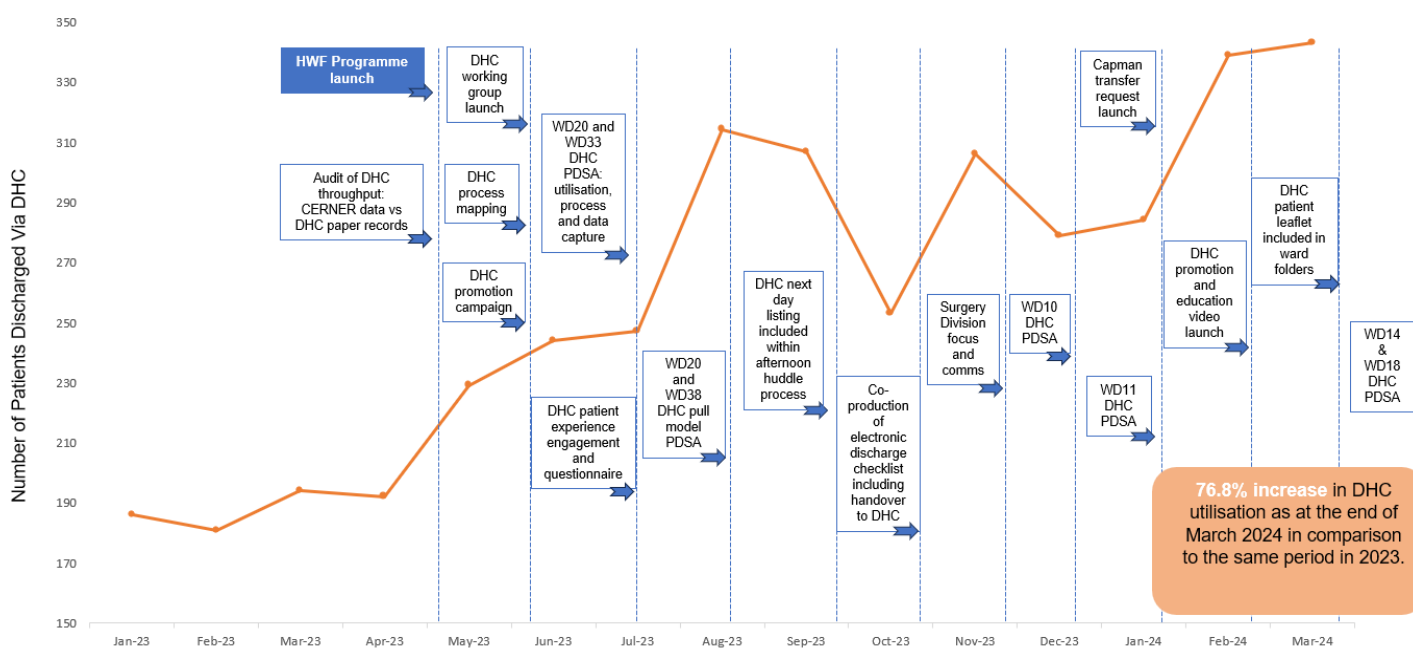

DHC Discharges

##### Discharge Hospitality Centre Utilisation

Timeline Overview of Improvement, 2023/24

#### How Have we Achieved This?

This achievement is the result of combined efforts of Ward MDTs, Transfer of Care Hub, Discharge Hospitality Centre and the Flow Team who have aided with:

- Participation in project working groups to identify barriers to flow and proposing solutions
