# C&M Wound Care Formulary

- This document accompanies the Cheshire and Merseyside Wound Care Formulary (WCF). This should be used as a guide to which brands and consumables have not been included in the WCF and their replacement products.
- This guide summarises the key information, such as brands and product descriptions, for products that are included and excluded from the C&M Wound Care formulary.
- This document does not contain information such as sizes, specifications or product reference numbers, for this detailed information please refer to the WCF.
- The categories in this crib sheet are taken from the WCF, on the left side of each slide is the brands and products that are not included in the WCF, on the right is the brands and products that are included in the WCF.
- Products are also coloured based on their intended use: **1st Line**, **2nd Line**, **TVN/Specialist only** and **FP10**.

# ABSORBENT AND SUPERABSORBENT DRESSING PADS

NHS

Cheshire and Merseyside  
Provider Collaborative

- Bandage Tubular elasticated viscose produced by **Actifast, Bastos Viegas, Bastos Viegas 4215, Comfi, Comfifast, Tubifast and Tubigrip**

## Compression Bandages

- Compression Bandages short stretch, stretched, 2-layer and 4-layer kits produced by **K-Plus, Actico 2C/Activa, Ko-Flex, UrgoKTwo and 3M Coban 2**

## Light Support

- Bandage light support produced by **K-Lite and K-Lite Long**

## Retention

- Bandage conforming and elastic net retention produced by **K-Band and Surgifix**

## Stockinette

- Bandage Tubular 100% cotton/100% viscose produced by **Configauz, Comfinette and Comfitube**

## Tubular

- Bandage Tubular Elasticated Viscose produced by **Clinifast**

# Medicated Bandages

## Medicated Bandages

- No products were removed for the formulary

## Medicated Bandages

- Bandage zinc paste BP/ichthammol/zinc oxide impregnated medicated stockings produced by **Viscopaste, Ichthopaste and ZipZoc**

# Exudate Management

## Exudate Management

- No products were removed for the formulary

## Exudate Management

- Wound contact layer silicone dressing one sided produced by **Mepilex Transfer**

# Films

## Plain Film

- Dressing vapour-permeable adhesive film sterile produced by **365 Transparent Film**, **Emfilm S**, **Hydrofilm**, **Leukomed T Skin Sensitive**, **Mepore Film**, **Opsite Flexigrid** and **Rocialle**

## Film With Pad

- Dressing vapour-permeable adhesive film with absorbent pad sterile produced by **Adpore Ultra**, **Clearpore**, **Mepore Film & Pad**, **Rocialle**, **Yibon**

## Basic Dressing

- Dressing Adhesive Island Non-Woven Fabric Semi Permeable Backing Sterile produced by **365 HealthCare**, **Blue Dot** and **Mepore Ultra**

## Surgical Wound Dressings

- There were no products removed from use by the Wound care formulary

## Plain Film

- Dressing vapour-permeable adhesive film sterile produced by **Tegaderm** and **ClearFilm**

## Film With Pad

- Dressing vapour-permeable adhesive film with absorbent pad sterile produced by **365 Healthcare** and **365 Transparent Island**

## Basic Dressing

- Dressing Adhesive Island Non-Woven Fabric Semi Permeable Backing Sterile produced by **Softpore**

## Surgical Wound Dressings

- Dressing Vapour permeable adhesive film with absorbent pad visible sterile produced by **OpSite Post op Visible**

# Foams

## Foams Silicone

- Foam dressing silicone non-bordered/bordered, including heel, sacral and polyurethane film backing produced by **ActivHeal**, **Advazorb**, **Allevyn Gentle Border Heel/Lite/Sacrum**, **Allevyn Life**, **Aquacel**, **Biatain (Lite/Non-bordered)**, **C-Foam**, **Cutimed Siltec**, **Espuma Gentle**, **Foamlite Convatec**, **Mepilex**, **Suprasorb P** and **Tegaderm**

## Foams Adhesive

- Foam dressing including adhesive border produced by **Activheal**, **Aone**, **Aquacel Foam**, **Biatain**, **C-Foam**, **Kliniderm** and **Mepilex**

## Foams Non-Adhesive

- Foam dressing non-bordered including adhesive and filmbacking produced by **365**, **Advazorb**, **Aone** and **Aquacel Foam**

## Foams Silicone

- Foam dressing silicone with or without adhesive borders including for heel and sacral produced by **Biatain**, **Convafilm**, **Silicone**, **Kliniderm**, **Allevyn Gentle** and **Mepilex**

## Foams Adhesive

- Foam dressing adhesive with border produced by **Allevyn Adhesive**, **Convafilm** and **Tegaderm**

## Foams Non-Adhesive

- Foam dressing non-bordered produced by **Allevyn**, **Convafilm** and **Biatain**

# Gels

## Gels

- Hydrogel gels and dressings with adhesive and non-adhesive produced by **ActiForm**, **Cutimed**, **Granugel**, **Intrasite Conformable**, **Kerralite**, **Nu-Gel** and **Pharmagel**

## Gels

- Hydrdgel gels and dressings with adhesive/non-adhesive produced by **Activheal**, **Intrasite**, **HydroTac** and **Purilon**

# Alginates

## Alginates

- Alginato standard dressings produced by **ActivHeal**, **Biatain**, **Cutimed**, **Kliniderm**, **Melgisorb**, **Pharma Algi**, **Tegaderm**, **Urgosorb**

## Alginates

- Alginato standard dressings produced by **Kaltostat**, **MaxioCel** and **Sorbsan**

# Hydrocolloids

## Hydrocolloid

- Hydrocolloid dressings produced by **Comfeel Plus Countour/ Sacral/Bevelled Edge, Duoderm, Granuflex, Hydrocoll, Kliniderm and Pharmacoli**

## Hydrocolloids

- Hydrocolloid transparent and thin dressings produced by **Comfeel Plus Transparent and DuoDerm**

# Hydrofibres

## Hydrofibres

- Gelling fibre dressings produced by **ActivHeal, Biatain, DuraFiber and Exufiber**

## Hydrofibres

- Gelling fibre dressings produced by **Aquacel and KeraCel**

# Interactive Dressings

## Alginate Gel

- No products were discontinued as part of the Wound Care Formulary.

## Alginate Gel

- Antimicrobial alginate gel and hydroactive colloid gel produced by **Flaminal Forte, Flaminal Hydro and Flamigel RT**.

## Desloughing

- No products were discontinued as part of the Wound Care Formulary

## Desloughing

- Debridement dressing and cleansing silver dressings produced by **Urgoclean**

## Silver dressing wound contact layer

- Antimicrobial wound contact layer dressing produced by **Atrauman AG**.

## Silver dressing wound contact layer

- Wound contact layer antimicrobial silver dressing produced by **Urgotul**

## Silver Dressing

- Specialist wound care antimicrobial barrier dressing by **Acticoat and Askina Calgitrol**.

## Silver Dressing

- Specialist wound care antimicrobial barrier dressing silver impregnated produced by **Acticoat Flex 3 and Acticoat Flex 7**.

## Silver Gelling Fibre Antimicrobial

- Gelling fibre antimicrobial dressing silver impregnated produced by **AquaCel AG, Durafiber AG and LiquiCel AG**.

## Silver Gelling Fibre Antimicrobial

- Gelling fibre antimicrobial dressing silver impregnated produced by **Aquacel Ag + Extra/Ribbon**

# Interactive dressings

## Honey

- Specialist wound care antibacterial honey sachets, tubes and dressings produced by **MediHoney**

## Polymeric Membrane Dressing

- *Please refer to full Product Equivalence Guidance and Formulary.* Some products by **Polymem** have been withdrawn from the formulary

## Cutimed Sorbact Dressing

- No products have been removed by the Wound Care Formulary.

## Protease Inhibitors

- No products have been removed by the Wound Care formulary.

## Iodine

- No products have been removed by the Wound Care Formulary.

## Honey

- Alginate antimicrobial honey dressing and special wound care honey produced by **Activon, Advancis, Actilite and Algivon**

## Polymeric Membrane Dressing

- *Please refer to full Product Equivalence Guidance and Formulary.* Two products by **Polymem** available for 1<sup>st</sup> Line use, with a wider **Polymem** products for TVN/Specialist only

## Cutimed Sorbact Dressing

- Wound contact layer antimicrobial DACC dressing produced by **Cutimed Sorbact** and **Cutimed Sorbact Hydro/Hydroactive**

## Protease Inhibitors

- Interactive polymer dressing impregnated with NOSF and enhanced foam dressings produced by **UrgoStart**

## Iodine

- Iodine wound care dressings, ointments and pastes produced by **Iodoflex, Iodosorb and Inadine**

# Mechanical Debridement

## Mechanical Debridement

- Specialist Wound Care Active Debridement produced by **Alprep Pad**, **Cutimed DebriClean**, **Debrisoft Duo**, **Debrisoft Pad** and **HydroClean Advance**

## Mechanical Debridement

- Specialist Wound Care Active Debridement pad/monofilament pad and cloth produced by **Debrisoft**, **Debrisoft Lolly**, **Prontosan** and **UCS**.

# Odour Control

## Odour Control

- Odour control standard/antimicrobial carbon dressing produced by **Actisorb Silver 220**, **Odolock**, **Pharmapad Carbon** and **Zorflex**.

## Odour Control

- Odour control standard carbon/cinnamon dressing produced by **Carboflex**, **Cinesteam** and **Clinisorb**.

# Scar Management

## Scar Management

- Scar management dressing and gel produced by **Cica-Care, Ciltech, Kemagel Silicone and Mepitel Film.**

## Scar Management

- Scar Management gels and dressings produced by **Bapscarcare Gel and Mepiform.**

# Wound Cleaning/Irrigation

## Wound Cleaning

- Irrigation Fluid Sodium Chloride solution and Polyhexanide betaine wound cleansing solution produced by **Blue Dot, Clinipod, LavaSurge and Prontosan (Gel bottle/tube and solution bottle)**

## Wound Cleaning

- Sodium Chloride, Polyhexanide betaine and Octenidene irrigation fluid, wound gel and cleansing solution produced by **Irripod, Normasol, Octenilin and Prontosan (solution ampoule 40ml)**

# Skin Protection

## Barrier cream non-sterile

- Barrier Cream and specialist wound care honey produced by **Derma Protective Plus and Sorbaderm**

## Barrier Film Foam and Spray

- Barrier film spray no sting sterile produced by **Sorbaderm**

## Honey Cream Skin Protectant

- Specialist wound care honey Balm 15g/50g tube produced by **Revamil Balm**

## Liquid Skin Protectant

- Liquid skin protectant 0.5g ampule produced by **Marathon**

## Barrier cream non-sterile

- Barrier Cream non-sterile produced by **Medi Derma-Pro, Medi Derma-S and Clinifilm**.

## Barrier Film Foam and Spray

- Barrier Film Spray Pump action/aerosol produced by **Cavilon, Cavilon Advanced, Clinifilm, Medi Derma-S and Medi Derma Pro**

## Honey Cream Skin Protectant

- Specialist wound care honey barrier cream produced by **Advancis**

## Liquid Skin Protectant

- Liquid skin protectant 0.7ml foam applicator Liquid skin protectant Sterile 2.7ml produced by **Cavilon Advanced**

# Wound Contact Layers

## Silicon Contact Layers

- Wound Contact Layer silicone dressing one/two-sided produced by **Adaptic Touch, Askina Silnet, Atrauman silicon, Biatain Contact, Cuticell Contact, FarlaCONTACT, Kliniderm silicone, Mepitel, Silotull and SilTact**

## Silver Wound Contact Layers

- Wound contact layer antimicrobial silver dressing produced by **Urgotul Silver**

## Impregnated Polymer Contact Layers

- Wound contact layer polymer dressing, impregnated with a lipido-colloid mass produced by **Urgotul and Urgotul Duo.**

## Paraffin Contact Layer

- No products have been discontinued as part of the Wound Care Formulary.

## Silicon Contact Layers

- Wound Contact Layer silicone dressing one/two-sided produced by **ActivHeal, Mepitel One and Silflex**

## Silver Wound Contact Layers

- Wound contact layer antimicrobial silver dressing produced by **Atrauman AG**

## Impregnated Polymer Contact Layers

- Wound contact layer impregnated polymer dressing produced by **Atrauman**

## Paraffin Contact Layer

- Wound contact layer paraffin dressing produced by **Jelonet**
